WHAT IS NAFCC ACCREDITATION?

NAFCC sponsors the only nationally recognized accreditation system, designed specifically for family child care providers. This system was designed by hundreds of providers, parents, and early care and education experts in an effort to create a quality indicator for family child care programs across the country.

NAFCC Accreditation is awarded to family child care providers who meet the eligibility requirements and the Quality Standards for NAFCC Accreditation. Accreditation reflects a high level of quality through a process that examines all aspects of the family child care program:

- Relationships
- The Environment
- Developmental Learning Activities
- Safety and health
- Professional and Business Practices

Accredited providers agree to abide by the standards set forth and to be measured against those standards with periodic integrity and compliance reviews.
