

COMMUNITY REFLECTION

Below are several reflection questions about community and classroom community that may be answered individually or in a small group.

<p>What does the word "community" mean to you?</p>
<p>When do you know that a group of children and teachers have formed a community? If you walked into a classroom during free play, what interactions, behaviors, and/or practices would show you are in a nurturing and caring community?</p>
<p>What type of community do you want for your classroom?</p>
<p>What specific practices, behaviors and actions will help create the community you envision?</p>
